How To Get Information

From the United States Department of Agriculture

Office of Public Affairs

October 1992

This list gives sources of information in the U.S. Department of Agriculture and its various agencies. It also includes names of the various Freedom of Information Act officers. When seeking information, call or write the person in charge of information on the subject matter in which you are interested. **When uncertain about the source, call the USDA Information Center at 202 720 2791.**

Most of the electronic mail addresses of offices or individuals shown are on the Federal FTS2000MAIL network provided by AT&T. The e-mail addresses are those used by those on the FTS2000MAIL system. Those on other public or private systems need to find out the addressing scheme to send messages to those on the FTS2000MAIL (AT&T) system.

Office of Public Affairs

OPA is integral to the historical and current mission of the U.S. Department of Agriculture. This office coordinates and assists with the flow of public information from USDA program agencies, reviewing all publications and audiovisuals, evaluating new information technology, maintaining availability of cur-

rent information from the Office of the Secretary, ensuring operation of adequate and appropriate channels for dissemination of information to the public, and optimizing public access to agricultural information through the news media. OPA administers USDA's computerized information delivery (CID) service and

coordinates the public affairs electronic mail network through the FTS2000MAIL system. OPA also provides departmental coordination of responses under the Freedom of Information Act, Privacy Act and its amendment, and Computer Matching Act.

Economic Agencies and Offices

Economic Research Service

ERS conducts research in domestic and foreign agricultural economics; analyzes factors affecting agriculture, farm productivity, financing, use of resources and potentials of

rural areas; evaluates marketing potentials and development and marketing costs; studies U.S. trade in agricultural products and the role of agriculture in economic develop-

ment of other nations; and reports situation and outlook, commodity projections, price spreads, and analysis of U.S. farm commodity programs.

Agricultural Research Service

ARS conducts mission-oriented research to insure adequate protection of food and agricultural products to meet nutritional and other needs of American consumers in

the animal and plant sciences, including disease and pest controls, soil and water conservation, postharvest processing and storage of commodities, safety of food, hu-

man nutrition, and integration of agricultural systems. It also operates the U.S. National Arboretum.

Cooperative State Federal Research Service

CSRS administers certain Federal funds appropriated for agricultural and forestry research at State agricultural experiment stations, forestry schools, 1890 universities and Tuskegee University, and selected

veterinary schools; helps coordinate regional research and research planning on a national and regional basis; and conducts competitive and special research grants programs and maintains the Current Research

Information System (CRIS) of State and Federal research records for publicly supported agricultural and forestry research.
